Jimmy,

Just a note to let you know how impressed I was with both the product provided and the professionalism your company demonstrated throughout the purchase and installation process.

Not only did we make functional adjustments to the crane design based on your experience and expertise but looking at the finished product realize now how important it was to work with a company that truly has the customer's best interest in mind.

The 5 ton bridge crane functions exactly as anticipated and I'm confident will provide many years of trouble free service.

It was great working with you and your company and look forward to doing business with Nebraska Hoist and Crane in the future.

Sincerely,
